

# Testimonial

*Brown & Hurley have been a supporter and have exhibited at Primex field days since its inception in the early 80's. We find that the event gives our company the opportunity to showcase our products and services to a much wider cross section of the community than many events held by our industry.*

*We have always found Primex good value for our advertising dollar and could see no reason why we would not continue to support the event.*

*Over the 20 plus years we have built up a close association with the Wright family and Exhibition Marketing Pty Ltd the promoters of Primex. John & Bruce Wright continue to work closely with Brown & Hurley to ensure that each year the event draws more and more prospective buyers for our products.*

*We are proud to be a foundation supporter of the Primex event and of our close working relationship with the promoter.*

Regards,

Kev Hurley
