Flood Assistance to
impacted small businesses

Donations from individuals,
community organisations, business
organisations and companies

Recent floods across South East Queensland and New South Wales have decimated communities and left thousands of businesses in desperate need of support.

Businesses are the glue that keep communities together, by providing local jobs and supporting local communities.

In some areas 90 per cent of small businesses have been hit.

In the recovery, small businesses are crucial to rebuilding and revitalising the regions.

The Business Council of Australia's BizRebuild initiative works in partnership with the Community Rebuilding Trust to provide fast financial support to small businesses in disaster affected Local Government Areas (LGAs).

BizRebuild works with state and local chambers, industry associations and all levels of government.

Two immediate forms of direct, rapid assistance are available now

1

\$2000 Retooling Vouchers for the purchase of equipment (for example, tools of trade, key equipment or infrastructure) destroyed or damaged during an event. These vouchers are used for the replacement of essential equipment which assists the business in reopening or resuming operating.

2

\$500 Business Advisory Vouchers provide critical business support and expert advice from local accounting services, appraisal and evaluation, architectural/interior design services, financial planning, IT services, legal services, management consulting, marketing/web development services and training and development.

These business advisory services may be useful in the recovery period when a business is considering its future operations.
